Here are a few questions to help us understand a bit more about your project. If you have any questions or would like to talk to us then please don't hesitate to give us a call at **(916) 705-8036** or send us a mail at [**support@dlishdesign.com**](mailto:support@dlishdesign.com).

- How would you describe your business, services and/or products?
- What would you like us to help with? e.g. "Building us a new website and designing a new company identity"
- Tell us a bit more about the goals of the project? What impact do you want to see once complete?
- Do you have any direct competitors?
- Who is your target audience?
- Tell us a bit about the desired websites/applications features?
- Do you have a specific deadline for the project?
- Do you know how much you want to spend? We just need a ballpark here, are we talking \$5,000 or \$50,000?
- Do you have any examples of websites/applications/logos you like or have elements you would want to achieve in your project?
